UNIVERSITAS
PRASETIYA MULYA

SCHOOL OF BUSINESS &
ECONOMICS (SBE)

Business Law is a broad field and important in the everyday business world inhabited by corporate managers and all other key persons in business decision making. Modern business world now requires law graduates who are able to handle legal cases from multidisciplinary perspective and to resolve legal disputes involving more than one jurisdiction.

The demand for competent corporate lawyers taking on management tasks in companies is growing rapidly nowadays. Professional lawyers with specialized knowledge in commercial law are sought-after. International law firms, multinational agencies and corporations increasingly require specialists with capabilities of combining business and law into a legal decision.

The "International Business Law" Program offered by Prasetiya Mulya's School of Law is aimed at exactly the point of intersection between law and business. This program is specifically tailored to the need of public and private entities for lawyers who are capable of performing management and legal works. The students will study and experience law in real sense through practical exercises, so that they are equipped with legal literacy, understanding legal compliance, and ability to develop legal innovation while also conforming the values of social, business and legal ethics.

The Program offers concentration in **three legal subject areas** with a broad range of courses. The concentration electives are chosen from the courses under; **i) International Comparative Commercial Law, ii) International Maritime, Air & Space Law, and Privacy and iii) Cybersecurity Law.**

The course concentration reflects the unique focus of on business and technology with entrepreneurial essence. These classes include Lawyering in Digital Age, Business for Lawyers, Accounting for Lawyers, Private Equity & Venture Capital Law, Investment Law, Legal Drafting, Transactional Lawyering and various Intellectual Property courses. To augment the concentration curriculum, our students will also take mandatory workshops in advanced level of contract and legal drafting, license and franchise law, and intellectual property law.

The program will be in bilingual and co-taught by legal academics, advocates, in house counsels, lawyerpreneurs, attorneys, business practitioners and entrepreneurs, from various areas of law and business, so to facilitate multi-disciplinary learning approach and to ensure that a right blend of theories and practices are impeccably applied.
